TWENTY THREE YEAR AFTERTASTE KEEPS THE FRAGRANCE

"The fragrance remains old" — because the secret of the unique quality lies in the rich old process by the Expert. The fragrance is not the essence but the art. The traditional Chinese mooncakes were made through the old way. Strictly by traditional quality, with elegant packaging, excellent taste and beautiful appearance, in the mooncakes, the quality is your best choice. From the government approval and France and the international government standard.
